DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-3, 25-28, 42-44 and 52-53 are rejected under 35 U.S.C. 102(e) as being anticipated by Snyder et al (U.S. Patent No. 6,252,608).

As per claims 1-3, 25-28, 42-44 and 52-53, Snyder et al disclose a method and system for processing image data including Z data comprising compressing at least a portion of generated Z data, to write the compressed portion of the Z data to the depth buffer in a compressed format, to read

portions of compressed Z data from the depth buffer and to decompress the compressed Z data from the buffer at col.13, lines 1-31.

Allowable Subject Matter

3. Claims 4-24, 29-41 and 45-51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
